

Asia Broadband Summit (ABS)

Toru Takahashi

IAJapan

Origin of ABS

- Dr. Kilnam Chon suggested 2001 to have new conference as Broadband Summit
- May 2002, INET2002 Washington DC, I met Madam Hu(胡) of ISC and talked about collaboration
- Three Internet associations in China, Japan and Korea, planned the "Asia Broadband Summit", aiming to contribute to the development of Broadband service and Internet industry through the use of Broadband technology.

Asian Initiative

- Internet service in the Asia-Pacific region enters a new phase with the opening of the Broadband era.
- Although this region has traditionally lagged behind the U.S. and Europe, it is emerging and growing toward becoming the largest Broadband market in the world.
- The marvelous development of Broadband in Korea leads the region, and Japanese IT strategy is encouraging this movement.
- In China things are just beginning, however, we can see a powerful movement gathering the leading technology and services from all over the world for implementation into a massive market.

Broadband Market in Asia

- Broadband network developed fast in Korea
- Market matured for broadband content
- Japan has been promoting BB network
- China will be biggest BB market
- Tremendous New Business born

Alliance

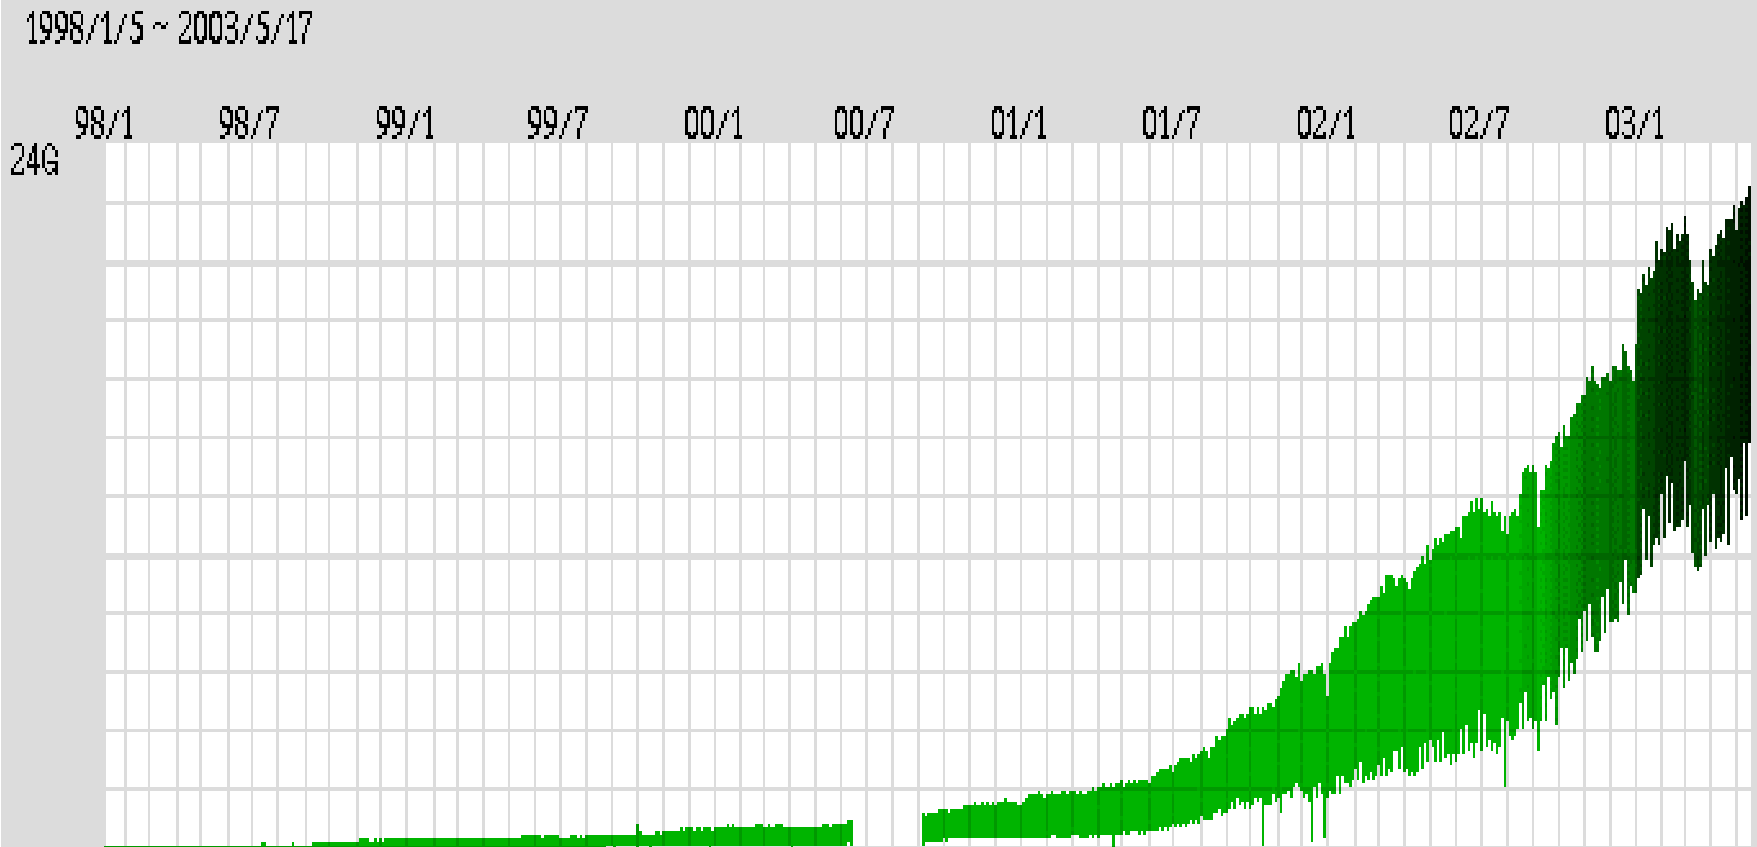

- Internet Alliance of China, Japan and Korea (IACJK) was formed in 2002.11.27 in Shanghai through Memorandum of Understanding
signed by Chairs of Internet Society of China, Internet Association Japan and Internet Association of Korea

DSL Subscribers

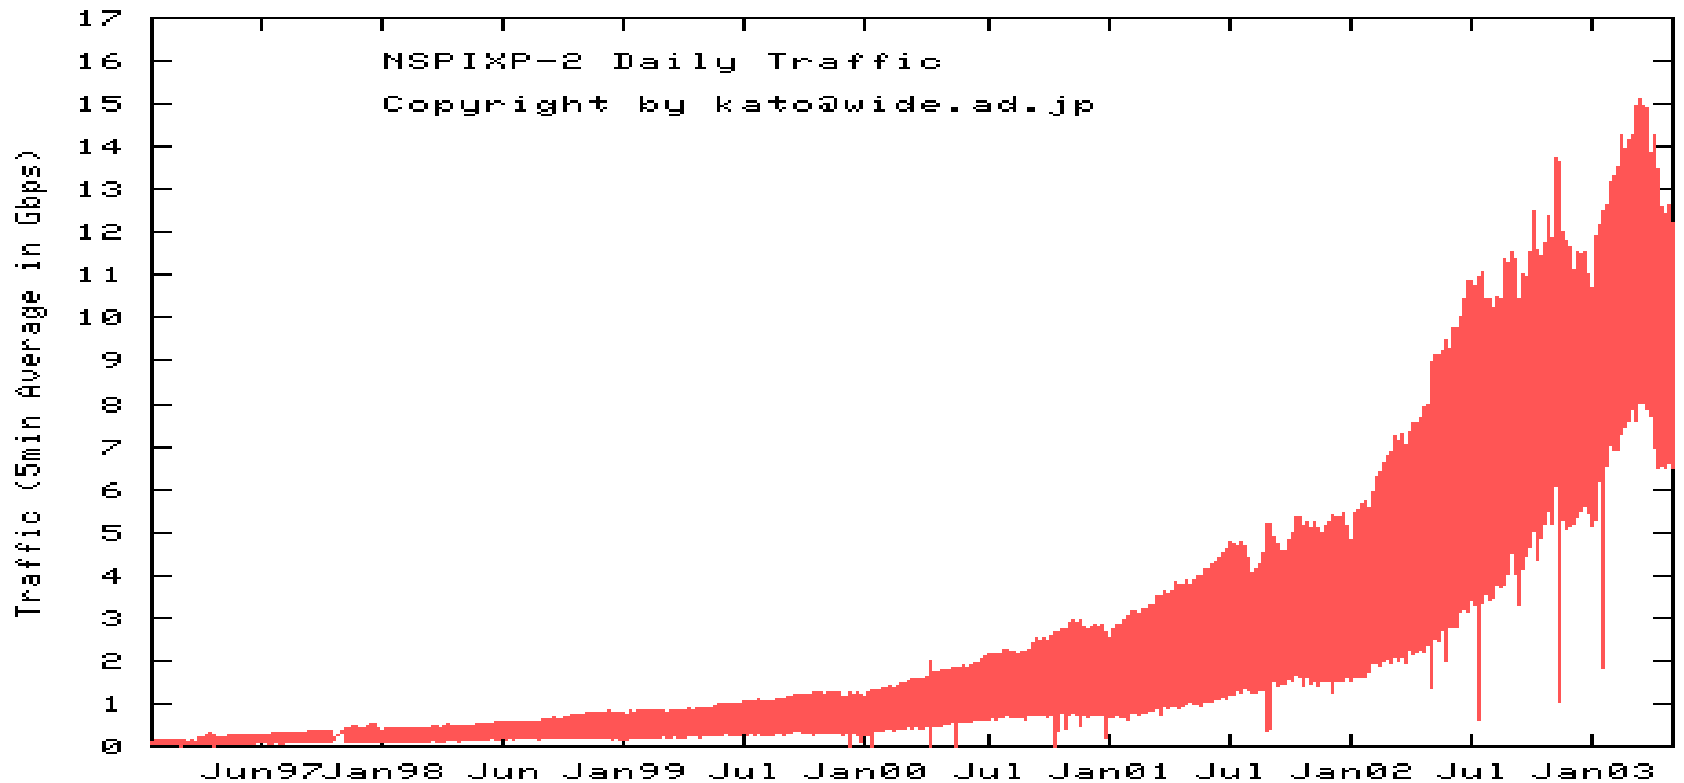

1. China	14 million
2. Japan	11 million
3. USA	11 million
4. Korea	7 million
5. Germany	5 million
6. France	4 million
7. Italy	3 million
8. Taiwan	3 million
9. Canada	2 million
10. UK	2 million
